You will design and build high quality WordPress websites for a wide range of businesses. You will work as part of our overall Technical Development Team based in Romania and will report to the Senior Technical Development Manager.

You will of course need excellent design and development skills, 2 years + experience of WordPress and a good understanding of SEO best practice. A proactive attitude plus the ability to be flexible and work as part of a team are essential attributes for this role.

What you'll be doing

- Creating quality websites and that will exceed customer expectations, deliver a great user experience and generate leads for their business
- Implementing SEO best practice into to web development projects
- Delivering designs for websites in line with the timescales outlined in our Service Level Agreement
- Work with the Development Team and UK Operations to deliver outstanding levels of customer service
- Being able to identify potential issues and outline solutions to any design challenges
- Evaluating current processes and where necessary implementing changes and improvements

What we need from you

- A portfolio demonstrating your work on a variety of different projects
- 2 years + experience designing and developing WordPress fully responsive websites
- Experience of working with a variety of WordPress themes and integrating a variety of plugins
- Knowledge of SEO best practices and how to implement into the initial web build
- Understanding of the importance of UI & UX and how best to implement in different sites
- Good industry knowledge & awareness of digital marketing trends and changes
- Good knowledge of HTML and CSS
- Experience of creating impactful landing pages
- Experience working with Adobe's full Creative Suite, including Photoshop, Illustrator and Muse.
- Experience of working with Woo Commerce
- Ability to work to a customer web brief whilst having the confidence, knowledge and ability to generate new ideas and explain the benefits to those involved in the process

- Strong photographic and typographic appreciation
- Ability to effectively communicate with all members of the development team
- Ability to organise, prioritise and handle a diverse workload
- Work with the Senior Technical Development Manager & UK Operations to identify new business opportunities
- Proficient in Excel/Word/PowerPoint with the ability to analyse data and prepare reports presentation
- Must have a relevant university diploma issued by an accredited institution of higher education
- Fluent in English both verbal and written
